

# NATURAL STONE DISCLAIMER

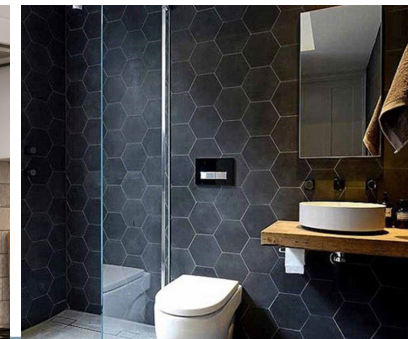

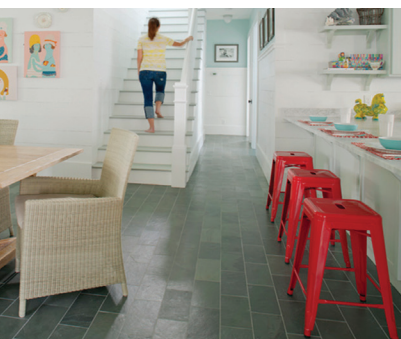

Natural stone is a product of nature and, as such, will exhibit inherent variations in color, shade, movement, veining, texture, and size. While we make every effort to source and supply premium, select-grade material, these natural variations are expected and are beyond our control.

Material supplied may differ from showroom samples or previous shipments. Samples are intended to provide a general representation only and are not guaranteed to match the current production lot.

Variation in natural stone is not considered a defect. It is the responsibility of the installer and/or purchaser to inspect all material prior to installation. We strongly recommend opening multiple cartons and performing a dry lay or blend of the material to achieve the desired appearance before installation.

We are happy to provide photographs of the current lot upon request prior to shipment. Please note that installation of material constitutes acceptance of the product.
